Summary:

Operates commercial sprayer or floater for the purpose of applying crop inputs to producer fields. Operates and maintains single or tandem axle trucks, multi-axle configuration trucks for delivery and/or pick-up of agronomy and/or energy products and other equipment.

Responsibilities:

- Applies crop production inputs to fields and growing crops according to recommended rates, procedures, and following all pesticide labels
 - Must have and maintain a CDL license with required endorsements, a satisfactory driving record and valid medical card
 - Records application data according to regulations and standards
 - Sets up material handling, blending, storage, transport and application equipment for blending and delivery of products
 - Blends products according to recommended rates and procedures
 - Demonstrates knowledge of and the ability to safely operate sprayers, floaters, single or tandem axle trucks and other equipment to meet company and DOT standards
 - Performs and records daily safety checks of assigned vehicle(s) and associated equipment by conducting pre-trip inspections, such as checking fuel and oil levels, inspecting tires, lights, and brakes
 - Loads and unloads containers, pallets, or materials and products, safely on/off trucks, trailers, or railcars
 - Ensures products are evenly balanced and distributed on trucks/trailers and proper axle weights are met
 - Responsible for the inventory control and turns in application records on a daily basis
 - Assures all products are accounted for with either an invoice or a delivery ticket.
 - Schedules maintenance and repairs of vehicles and equipment as requested
 - Maintains an appropriate inventory of parts necessary for repairs and maintenance
 - Maintains service records of each piece of equipment and vehicle to document a quality maintenance program and meet DOT requirements
 - Responsible for the housekeeping of the shop
 - Collects and records soil sample information
- Successfully adhere to safety rules and company policies and procedures. EHS, OSHA and DOT policies and procedures must be adhered to at all times.
