### **Job Summary:**

---

Operates and maintains single or tandem axle trucks, multi-axle configuration trucks for delivery and/or pick-up of agronomy and/or energy products and other equipment.

### **Essential Functions:**

- Records data according to regulations and standards.
- Set up material handling, blending, storage, transport and application equipment for blending and delivery of products.
- Blends products according to recommended rates and procedures.
- Demonstrates knowledge of and the ability to safely operator single or tandem axle trucks and other equipment to meet company and DOT standards.
- Performs and records daily safety, inspections and maintenance checks of assigned vehicles and equipment.
- Follows the preventative maintenance program and maintains a clean truck and equipment according to company standards.
- Safely and in accordance with regulations and procedures loads and unloads containers, pallets, or materials and products on/off trucks, trailers or railcars.
- Responsible for inventory control and turns in daily records.
- Ensures that associated documentation are completed accurately and returned to proper location at the end of the day.
- Completes all necessary paperwork, such as logbooks, cargo records and all other records.
- Provides quality customer service.
- Adhere to the company Uniform Policy and maintain the appropriate professional image.
- Ability to work extended hours and on-call as business conditions warrant.
- Successfully adhere to safety rules and company policies and procedures.
- Must have and maintain a CDL license with required endorsements, a satisfactory driving record and valid medical card.
- All other duties as assigned.
